

WHAT TO DO WHEN RECEIVING YOUR NEW SPA-CHAIRS

1. Receiving and Open-box inspections:

Upon receiving, thoroughly inspect each shipment immediately upon arrival. It is important that you notify the driver and insist on a notation of any damages. Make this notation directly on the freight company's waybill or bill of lading. Failure to note any damage on the waybill or bill of lading may impede and/or prevent any claims that you may have against the freight carrier.

If missing parts or damage is found, please notify the carrier at once and request an inspection. **DO NOT DISCARD THE SHIPPING BOX.** If you give the carrier a clear receipt for goods that have been damaged in transit, you do so at your own risk and expense.

2. Moving/Handling Spa-chairs and furniture:

The product is heavy (over 200lbs). It should be moved with a dolly to prevent dropping or damaging.

When lifting the pedi-spa, **DO NOT LIFT THE FOOTREST.** Damage of footrest due to wrong handling will not be covered under warranty.

The correct way is always to lift the spa from the bottom.

3. Reference of setting up the gravity drain and power drain

NOTE: The drainage and water supply system installation requires a licensed plumber. Detailed instructions can be found in the manual book. Instructions and local plumbing codes need to be carefully compiled to pass the city inspections.

1) Gravity drain

2) Power drain
